Palo Alto, California

Dear Josh,

Again, as last year, the date you set for the meeting of the Exobiology Committee coincides with that of the meeting of the National Science Foundation Senior Post-doctoral Fellowship Board in Washington, which I have promised to attend. I suppose that your date is immovable, and therefore I shall regretfully have to ~~leave~~ ^{miss} the more interesting of the meetings.

I do hope, however, that I shall have a chance to see you when I am on the Stanford campus this month to lecture for the basic Medical Sciences group.

With best regards to Esther and yourself.

Sincerely yours,

Daniel Mazia
